

**Solihull Active** is the Council's leisure, sport and physical activity team in Public Health. The team aims to improve lives by inspiring communities to be more active, more often by:

- Providing targeted services focused on the least active individuals in the borough, delivered via working in partnership with the voluntary and community sector, local organisations, and through the leisure contract.
- Management of the leisure contract with Everyone Active, which provides high quality public leisure facilities and a varied programme of recreational, sporting and community activities that are accessible to all individuals of all ages.
- Leading, supporting and developing the Solihull on the Move framework.

**Solihull on the Move** is a framework set out to support a Borough wide commitment, inspiring healthier, happier and more sustainable communities through moving more, more often. This is achieved through:

- **Active Travel** - Building on our schools streets' programme and investment in walking and cycling.
- **Active Places** - Promoting the borough's sporting attractions, building on the Commonwealth Games, and local sports infrastructure.
- **Active Society** - Widening participation through our leisure services, Solihull Active and our Active Communities Pilot.
- **Movement is Medicine** - Working with NHS to encourage people to be more active through GP champions & social prescribing.
