

## Appendix 2      Rationale for not selecting suggested new sites

Junction of Hurst Lane North Castle Bromwich.	There had been a tube here previously and readings were not high so this site was discontinued
Wasperton Close, Castle Bromwich.	This site was only a short distance away from a site already being monitored at Kingsleigh Drive
Park Hall Academy	The school was contacted to see if they wanted to join the school monitoring programme but did not respond
The Space at Kingshurst	This was close to Kingshurst Primary who were contacted to join the school monitoring programme but did not respond
Hobs Moat road by Wheatsheaf	A tube is now installed on a house on the junction of Hobs Moat Road
Lyndon Road by A4, and Barn In/Richmond Road	There were some properties that would have been suitable but despite door knocking and letter drops, no householder contacted us or agreed to monitoring
Kite Green Close area	After a letter drop, a suitable location was found in Ryeclouse Croft
Auckland Drive/Riley Drive	There were some properties that would have been suitable, but despite door knocking and letter drops, no householder contacted us or agreed to monitoring
Hurdis Road/Bills Lane	There were some properties that would have been suitable, but despite door knocking and letter drops, no householder contacted us or agreed to monitoring
Haslucks Green Road/Newborough Road	There were some properties that would have been suitable, but despite door knocking and letter drops, no householder contacted us or agreed to monitoring
A34 Powergen site	We currently have a tube located very close to this on Stratford Road
